

GAUGE VALVE 10S - ADVANTAGES & APPLICATIONS

We stock a variety of gauge valves so that we have one to suit your every need. Our 10S Gauge Valves come in different sizes, manufactured using either Stainless Steel or Carbon Steel.

Sr. Number	Connection (gauge x vessel)	MOC	Model Code
10S	5/8" x 1/2"	Carbon Steel	70040002
10S	5/8" x 3/4"		70040003

BLISS ANAND 10-TU valves feature a straight type body with integrated seat and Elastomer (EPDM) Glass tube packing bush, with integral seat and PTFE valve cone.

These are primarily used for tubular type level gauges, for low pressure and temperature applications. They are equipped with mounting clamps to fit glass protection rods.

They also feature a ball check arrangement.

Industries Served

- Oil & Gas
- Chemical & Petrochemical
- Water & Wastewater
